Enjoy every day of
your pregnancy

MyBabyStrap®

Lumbar maternity belt to aid in relief and support during pregnancy and after birth

Indications: Pain and discomfort associated with pregnancy

- Lower back pain
- Pelvic pain
- Sacroiliac pain
- Postural instabilities
- Discomfort due to stretching and expansion of the abdomen
- Back support after birth

Modular design:

adaptable to all stages of pregnancy and also after birth. Easy to adjust

Adjustable back pad:

to help provide additional support and compression in the back area

Four posterior rigid stays:

for extra support in the lumbar area

Bilateral straps:

to help provide adjustable relief. Tightness can be adjusted according to individual needs and level of pain

Anatomical shape: follows the natural contours of a pregnant body for an improved fit, with no pressure on the abdomen

Stylish maternity belt: featuring feminine details (silver threads and scalloped edge design)

Thin, soft and breathable fabric: for a comfortable fit

Ergonomic front panel: for comfort when sitting or standing

Easy-to-use with simple, hook-loop closure: patients can quickly adjust the belt to the desired level of comfort

Removable elastic strap: for lower abdominal support. Easy application
